

John Kyle Camson

Software Developer | Brisbane, QLD | 0452 204 889 | Jkylecadap@gmail.com | linkedin.com/in/jkcamson

Portfolio Website: Portfolio.jkylec.dev

Work Eligibility: Currently eligible for full-time work in Australia

PROFESSIONAL SUMMARY

Recent IT graduate specialising in full-stack development with hands-on industry experience at Orefox, where I built production-ready web and mobile solutions for the mining industry. Skilled in Python, Django, React, and RESTful API development, with a strong focus on backend architecture and real-world problem solving. Demonstrated ability to deliver under real-world constraints, with a strong work ethic developed through balancing part-time employment alongside full-time IT studies.

EDUCATION

Bachelor of Information Technology — Griffith University	2024 – 2025
Diploma in Information Technology — Griffith College	2023 – 2024

TECHNICAL SKILLS

Languages: JavaScript, Python, Java

Frontend: React, React Native

Backend: Django, Django REST Framework, Node.js

Databases: PostgreSQL, SQL

Tools & Platforms: Git/GitHub, Unity, Figma, Postman, RESTful APIs

Cloud & DevOps: Docker, AWS

WORK EXPERIENCE

Software Developer Intern | Orefox Aug 2025 – Oct 2025

- Collaborated with a 2-developer team to build a production-ready web and mobile solution for the mining industry, from design through to deployment.
- Took full ownership of backend architecture and RESTful API development using Django and Django REST Framework, delivering robust offline data synchronisation features under real-world constraints.
- Engineered client-side offline functionality using JavaScript, enabling field workers to log critical shift and incident data without internet connectivity, with automatic synchronisation upon reconnection.
- Debugged and resolved critical full-stack issues, improving application stability, data integrity, and overall performance within a collaborative team environment.

Housekeeper (Part-time) | Global Hospitality Solutions Pty Ltd Nov 2023 – Apr 2026

- Maintained consistent part-time employment throughout full-time IT studies, demonstrating strong time management and commitment.
- Developed interpersonal and teamwork skills by collaborating with colleagues across diverse teams to meet daily operational targets.

RELEVANT PROJECTS

Mining Industry Web & Mobile Application | Orefox (Work Integrated Learning) Aug 2025 – Oct 2025

Technologies: Python, Django, Django REST Framework, JavaScript, RESTful APIs, PostgreSQL

- Designed and implemented RESTful APIs to enable seamless data communication between mobile and web platforms.
- Engineered offline-first functionality allowing field workers to log critical data without connectivity, with automatic sync upon reconnection.
- Contributed to cross-platform integration ensuring seamless functionality between backend services, web interface, and mobile application.
